BULLETIN NO. 2

SPRING 1911

Grade Count Surplus
Transplanting Stock
Imported Stocks : :
Seedlings, Scions
and Supplies : :

Washington, D. C.
Department of Agriculture

FIRST SHOWING OF BOXED LOTS

CHASE NURSERY COMPANY

HUNTSVILLE, ALABAMA, February 15th, 1911.

TO THE TRADE :

This Bulletin No. 2 shows a good many new items, Imported Stock that has arrived since Bulletin No. 1 was issued, final counts on many varieties, and our first showing of Boxed Lots for St. Louis Storage. Will begin packing Surplus Stock for Cold Storage within the next two weeks; let your order come promptly before the assortment is broken.

Orders booked in rotation as received. We do not substitute unless instructed and as a great many items will sell quickly it will facilitate matters if you will name "second choice" where possible.

Terms and conditions of sale as per our regular annual Trade List—copy on request.

Cash with order where purchasers credit is unknown to us.

Boxing extra except as noted.

Immediate shipment or will hold until Spring as desired.

Special attention is called to our assortment of Transplanting Stock—small Fruit Trees, Ornamental Trees and Shrubs, Roses, &c. This small stock is graded carefully, is vigorous, clean; will grow into good money and give you a quick return on your investment.

Your orders will receive prompt attention.

Freight Prepaid to our distributing points—St. Louis, Philadelphia and Rochester—when shipments can be included in our regular car lots.

APPLE, One Year Grafts

Clean roots, good roots,
a nice lot, mostly whips.

*BISHOP'S EARLY—From West Virginia, very prolific, ripening between Carman and Champion.

*SUNRISE CLING—An improved Heath Cling, more prolific than Heath.

*WALKER'S VARIEGATED FREE—Much like Stephens Rarierpe, one of the surest bearers and best croppers, ripening after Elberta.

EVERGREENS

Evergreens described below have been at least twice transplanted; plants are grown wide apart in rows, giving each one room to develop, and are perfect specimens. We will use every precaution in handling evergreens to keep roots from exposure, but we recommend digging them with a ball and burlapping. For price handled in this manner, add ten cents per plant to the grades three feet and up, five cents per plant to the two to three feet grade and smaller.

300 Biota Orientalis (Chinese Arborvitae), 5 to 6 feet	50 cents

PRIVETS

We grow the four varieties listed in quantity and use great care in grading. Satisfaction guaranteed.

AMOR RIVER, NORTH. Resembles California in habit of growth. Tardily deciduous here, where California is practically an evergreen. By some called Upright Ibota.		Per 1000
700 4 to 5 feet, well branched		\$100 00
1250 3 to 4 feet, well branched		85 00
3800 18 to 24 inches, well branched		30 00
1000 12 to 18 inches, well branched		25 00

AMOR RIVER, SOUTH. Well known all over the South under this name. An entirely different plant from the one described as Amor River North. Slender and graceful in habit of growth; small leaves; evergreen.

3000 18 to 24 inches	25 00
1000 1 to 2 feet, transplanting	12 00

IBOTA. Very graceful, arching growth. Leaves long and narrow, and drop early. This plant has been grown under this name in New England in localities where California has been severely winter-killed, and is regarded there as perfectly hardy.

750 3 to 4 feet, heavy	50 00
1200 2 to 3 feet, heavy	40 00
1000 18 to 24 inches, heavy	30 00
2000 12 to 18 inches,	20 00

JAPAN PRIVET (Evergreen)—see Evergreen Shrubs.

CALIFORNIA PRIVET—Beautifully rooted fine stock.

3 to 4 feet, well branched, 4 and more branches	30 00
3 to 4 feet, light branched, 2 and 3 branches	25 00
2 to 3 feet, well branched, 4 and more branches	22 50
2 to 3 feet, light branched, 2 and 3 branches	17 50
18 to 24 inches, well branched, 4 and more branches	17 50
18 to 24 inches, light branched, 2 and 3 branches	12 50
12 to 18 inches, heavy branched, 4 and more branches	10 00
8 to 18 inches for transplanting	8 00

BOXED LOTS

INSTANTANEOUS ACTION!

The following BOXED LOTS OF PEACH are now enroute to St. Louis. CAN SHIP QUICK or hold until wanted. These trees are not of our own growing—the Surplus of one of the large Southern retail concerns—not as well rooted trees as ours and varieties are a little off. DON'T THINK WE WILL HAVE ANY SURPLUS PEACH OF OUR OWN GROWING TO OFFER FROM STORAGE. We are putting a low price on this lot and they are mighty good value at these figures. Prices shown are net F. O. B. CARS ST. LOUIS. First come, first served.

SPECIAL CHERRY

GOOD NO. 2

Here is the Cherry bargain of the year. These trees at yearlings were struck by hail, not heavily, but hard enough to cause scars that can be seen without a microscope. We have culled out and burned everything that is not merchantable. These trees are beautifully rooted, well branched, heavy, vigorous; held their foliage well. Some trees that are free from scars, but that are not well shaped, or otherwise imperfect, are included. Samples if desired. Note the prices.

TWO AND THREE YEAR

SUPPLIES SHIPPED FROM HUNTSVILLE

Grafting Thread

Grafting Thread put up in balls, three-ply, firmly twisted and loosely wound, so that it can be soaked in boiling wax and used from the ball either for hand wrapping or for graft wrapping machines. Not waxed, per lb. 40 cts; same waxed ready for use, per lb. 45 cts.

The illustration on this page shows a ball of our grafting thread with a pencil run through the hole in the center. Many nurserymen prefer to suspend the ball of grafting thread in warm water while it is being used, as described below. This can be used either way.

To Keep Grafting Thread in Good Condition While Using

Put a ball of waxed grafting thread into a quart cup or pan (a tomato can will do), fill it half full of water and arrange over a lighted lamp or small oil stove to keep the water warm.

Recipe for Grafting Wax

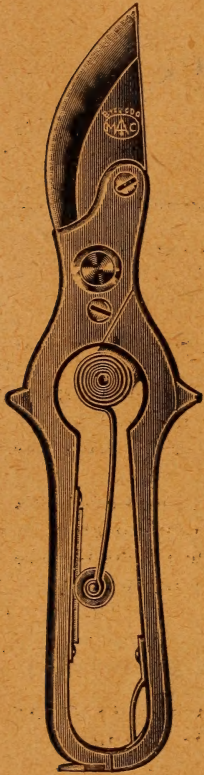

For Bench Use, and How to Wax Your Thread

One part (by weight) tallow; two parts (by weight) pure beeswax; four parts (by weight) rosin. Put all in an open kettle and melt down. When boiling, stir thoroughly, throw in balls of thread loosely wound. When the balls sink to the bottom of kettle, the wax has gone through and they are ready to come out; when cool, are ready for use. It will require from two to four minutes for balls to sink.

Pruning Shears

Watch Spring, French, 8 Inch—Per pair postpaid, \$1.35; per doz. pairs, freight or express \$14.50. (Weight per dozen pairs 7 lbs.)

Watch Spring, French, 9 Inch—Per pair postpaid, \$1.70; per doz. pairs, freight or express \$17.00. (Weight per dozen pairs 11 lbs.)

Watch Spring, French
8 inch

The Watch Spring French Shears stand at the head of the list for making cuttings of all kinds. For this work the 8 inch size is just right. For cutting back seedlings to the bud or any heavy work the 9 inch is recommended. In making cuttings the shears used should make a quick, clean cut (which these shears do to perfection) and they should have a properly proportioned grip to enable the operator to do a full days work without cramp. We have used this make for years and find that it fills the bill better than any others we have tried. Once in a while a spring will break. We now import extra springs and can supply either size at all times for 20c. each postpaid.

Ladies' German—6 in. full nickle-plated; volute spring. Not large enough for general use. High grade, beautifully finished, large enough for use about rose bushes or shrubs in the garden, or for light work. 75c. per pair, postpaid; \$8 per dozen pairs by freight or express. Weight per dozen pairs, 2¾ lbs.

Ladies' German
